AN AUTOMATIC SCARECROW WORKING WITH PROPANE OR BUTANE GAS.

GUARDIAN-2 functions with Propane or Butane gas. Electronic start-up system (piezoelectric). Principal machinery is in zinc to withstand inclement weather. The sound intensity can be regulated by means of the telescopic cannon attached. Defends your crops from birds and other harmful animals which may ruin them. Does not destroy animals, it only frightens them off, thus conserving the ecological balance. Is backed by more than 40 years experience in producing scarecrows for crop protection. Is easy to use, with no risk of breakdowns or accidents. Gives off detonations with a preset frequency of 3 to 30 minutes, by means of a regulating tap.

** Timer also available as an optional extra.*

(Minimum of 10 hours and maximum of 19 hours of operation using the timer)

(RPG-01-001/0202)
